2023 is being promoted as the 50<sup>th</sup> anniversary of the Bathurst Car Race. It was 500 miles from 1963 to 1974, when Australia went "Metric" and the race was extended to 1000 km. The first (1963) Bathurst 500 was won by Harry Firth and Bob Jane in the Cortina GT pictured above.

**GENERAL BUSINESS**

**FIRE STATION**

- At least 5 Club Members have completed the Crown Reserves online site induction.
- Club has needed to obtain an ABN as the Electricity supply is to a Business Premises. This has been done and Electricity supply through Shell Energy arranged.
- Crown Reserves have provided a detailed statement of the Station's condition, and this is being developed into a priority list of works in conjunction with our desires for improvement to turn the site into a Fire Museum.
- The Site is on Parkes Shire Council's Local Heritage list, and Council can make funds available on a 50/50 basis for certain Heritage related works.
- Crown Reserves Improvement Fund also has funding available for works at sites such as this.
- Funding applications for both Council Local Heritage and Crown Reserves works are to be submitted before June each year, so the Club has a reasonable time frame to develop proposals for application.
- The Annual report to Crown Reserves on the Club's management of the site is being prepared and is to be submitted in October each year.

**SUNDAY 17<sup>th</sup> SEPTEMBER**                      ***IANDRA and GRENFELL***

All the best laid plans.....are subject to change for any of a number of reasons!  
Departure from Mouldens Hill went off OK, but first port of call was the Chrysler collection, which features a number of rare machines, which were top performers in their day.

Two side valve straight eights; a 1930 Dodge and a 1932 Chrysler. Chrysler marketed four straight eight motors from 1931, ranging from 240 c.i.d displacement up to 385, the largest producing 125 hp. The conventional (6 cyl) Chrysler products of the day made do with 217 c.i.d. producing 85 hp. The red 1970 E34 Pacer (*the first "Hemi"*) had the option of either a two barrel or four barrel carburettor. Both raced at Bathurst, but the two barrel carb vehicle finished ahead of the four barrel, because its better fuel economy resulted in one less pit stop!

Some lunched in the Main Street of Grenfell, whilst others went to Iandra and lunched there. Iandra is the name of the 13,000ha property purchased by Mr Greene in 1878. Mt Oriel is the name of the homestead. At one time, 350 men were employed on the property including 61 sharefarmers. At one time it carried 19,000 sheep and produced 10,000 tons of wheat in a year.

The house was commenced as a single storey building in 1880, but extended in the 1900's to a two storey reinforced concrete building on the original foundations.

St Saviours Church was built in 1886,

and the stables in 1908

***5<sup>th</sup> ANNUAL BIKE RALLY***

Well, it's been and done for another year. Numbers down a little but all had smiling faces from the time of arrival until departure after breakfast on Monday.

Great work by Bruce and all those who pitched in to make it happen.

The ladies for a GREAT morning Tea at Eugowra.

And also to Bruce's "Road Gang" who made sure that all arrived at their appointed destinations in one piece and on time (or something close enough to that!)

**SUNDAY OCTOBER 1<sup>st</sup>**

**FORBES MOTOR SHOW**

The Bike Rally at Parkes and the celebration of Draught Horse at Barellan provided sufficient conflicts to mean that Club participation in a very good show that traditionally attracts a wide range of vehicles and exhibits was somewhat limited.

Photos by Hedley Nicholson. See if you can spot his Fairlane in the top photo!

## *NEXT CLUB EVENTS*

### **SATURDAY OCTOBER 14<sup>th</sup>      *CENTRAL WEST SHOW AND SHINE***

See also the flyer in this magazine, page 11.

Another great local show. Traditionally we have conducted our Swap Meet in conjunction with this Show, but as Parkes Shire intended using the plot we usually squat on as a Lay Down Area for Stormwater works, we can't Swap this year!

That means we have an unprecedented opportunity to take part in this year's CWCC Show and Shine by lodging heaps of entries!

### **SUNDAY OCTOBER 15<sup>th</sup>      *PAMC CLUB RUN***

This will be a Twilight run for dinner at the Bogan Gate Hotel.

The idea is to depart from the Truck Parking Area on the Condobolin Rd (near Shallow Rush) at 4.00pm, have a leisurely run to Bogan Gate in time for a cleansing ale or two and a yarn or three, before selecting Dinner from the Hotel menu.

Bogan Gate Hotel has received a nomination to be one of the best pubs in NSW so this should be a great run.

As Daylight Saving is now upon us, cars with 6 volt headlights should not have too much difficulty finding their way home!

Numbers will be taken at the coming club meeting.

## ***CLUB SHOWGROUND SITE***

During the Parkes Show, we discovered that works in the Showground had resulted in damage to the rail around the concrete slab that we had poured many years ago on which to display Motorcycles.

Since the Show, a bit more damage has occurred, with one of the posts supporting the Club sign becoming horizontal.

In addition, the club sign has faded quite some since it was painted about 15 years ago. We need to organise a bit of a working bee; preferably soon; as campers use the site during the Elvis Festival, and a tidy site is good for the club's image.

### ***CLUB DELEGATE***

The Club needs a delegate to the CHMC Meetings, and observers may also attend. We need to advise CHMC of who the Delegate is, and how many other Club members will be attending.  
Nominations will be taken at the coming meeting.

## HVS / CVS Vehicle Registration Workshop – DUBBO Nov. 4 2023

**This workshop is open to representatives from all clubs in NSW providing HVS or CVS registration opportunities to their members, not just clubs affiliated with CHMC, HMA or CMC. The purpose of the meeting is to update and inform clubs on the HVS and CVS schemes and on Logbooks.**

### Page

CHMC ran similar workshops this year in Ballina and Cooma, these are always well received providing clubs with:

- consistency and accuracy in conditional registration information, and
- opportunities to have their HVS and CVS queries accurately responded to.

The Workshop will be addressed by members of the TfNSW team that oversees the HVS and CVS schemes. They will also speak to local road toll issues and road safety.

The day will follow our usual Panel format, with Peter Wright (CHMC) and Phil Mudie (HMA) as the industry representatives and the TfNSW team in the Panel. Phil will be our moderator for the day.

There will be a FAQ session – CHMC clubs are invited to send questions they'd like put to the Panel to our Registration Liaison Officer, Peter Wright [pjwright18@bigpond.com](mailto:pjwright18@bigpond.com) by **Oct 25th**.

### Agenda:

- 10.00 Meeting Start
- Welcome
- Introduction of Panel members
- Towards Zero program - safety and local road toll issues
- 11.15 to 11.30 Morning tea break
- FAQ Session
- Questions from the floor
- 12.30 approx. Meeting Close

**Date:** Saturday 4<sup>th</sup> November 2023

**Venue:** Starlight Room, RSL Club, Dubbo. Access to the building from 09.30

**RSVP:** We ask that no more than 5 members of any one club attend. To assist with catering etc. clubs please advise their intended numbers to: Phil Mudie: 0407 034 484 or email [philipmudie@hotmail.com](mailto:philipmudie@hotmail.com).

*DRIVE LITE is a bulletin produced regularly by Transport for NSW  
Many Club members have received it via email.*

## DRIVE Lite - historic and classic

Dear car club members

Welcome to the September edition of DRIVE Lite - Historic Vehicle Scheme (HVS) and Classic Vehicle Scheme (CVS). In this edition we've got a wrap up from our attendance at the Shannon's Classic, a reminder about attending HVS and CVS events, we also answer your questions about 'Responsible Persons,' compliance certificates, and give you an update on routine vehicle inspections that we conduct with NSW Police.

### **Shannon's Classic event wrap-up!**

The Transport for NSW Regulatory Operations team attended the annual Council of Motor Clubs' Shannon's Sydney Classic at Eastern Creek on Sunday 20 August. They enjoyed meeting club enthusiasts at Shannon's Sydney Classic and answering their questions and concerns regarding the classic vehicle scheme.

*In this photo left to right: Mark McIntyre - Team Leader Regulatory Compliance, Jonathan Smith - Regulatory Compliance Officer, Fiona Frost - Senior Safe System Project Officer*

## HVS and CVS vehicles attending events

Vehicles registered in the Historic or Classic Scheme primarily are owned by enthusiasts who use and enjoy the 60-day log book scheme.

Above and beyond the log book use, or for clubs that have not opted into the log book scheme, can follow the “club run” rules.

The Transport [Log Book](#) Fact sheet provides detailed information on this topic.

From time to time, some clubs are invited to attend events from community organisations or other car clubs. The invitations from other car clubs are sometimes referred as “invitation club runs.”

These invitations from community organisations or other clubs should be declared as official club events and promoted and recorded via the club’s established processes.

### Your questions answered:

#### Can a club have more than one ‘Responsible Person’?

Thanks to Gundagai Antique Motor Club Inc for sending in this question. A club may have more than one ‘responsible person,’ to cater for workload, geographic areas etc. It is important for the Responsible Person to be well-informed about the eligibility requirements of the Historic Vehicle Scheme and to fulfill their responsibilities diligently to ensure compliance.

In signing and stamping Form 1259, the Responsible Person has declared that in physically sighting the vehicle, it can be determined that the vehicle is in a safe operating condition and is eligible for the Historic Vehicle Scheme in meeting both age and the limits of owner certified modifications.

A club may have more than one “responsible person,” but the club should be ensuring that these numbers are limited, the people are well versed in terms of their obligations and that the club stamps are well managed and tracked.

The club’s robust compliance regime should be detailed enough to mitigate any potential non-compliance.

Clubs are reminded that they must notify Transport for NSW on any changes to their nominated Responsible Persons. This must be sent to Accreditations

[ais@transport.nsw.gov.au](mailto:ais@transport.nsw.gov.au)

#### Do I need a Compliance Certificate for a modified vehicle?

A vehicle registered under the Classic Vehicle Scheme (CVS) that has undergone a significant modification requires certification. If that vehicle was certified prior to the introduction of the VSCCS (i.e., in Dec 2011) that an Engineering Certificate issued by participant of the NSW Engineering Certification Scheme is acceptable provided it addresses the modifications made to the vehicle and can be produced if requested by a Club Official or an Authorised Officer or an Authorised Person.

If the vehicle has undergone additional modifications or if that Engineering Certificate cannot be produced when requested, a Compliance Certificate issued in an approved format by a VSCCS Licensed Certifier must be obtained.

### Good to know - routine compliance inspections are underway

During routine vehicle inspections, NSW Police identified 37 vehicles in the Macarthur region that may have had defects and issued the owners [S.66 notices](#) for the vehicles to attend for inspection.

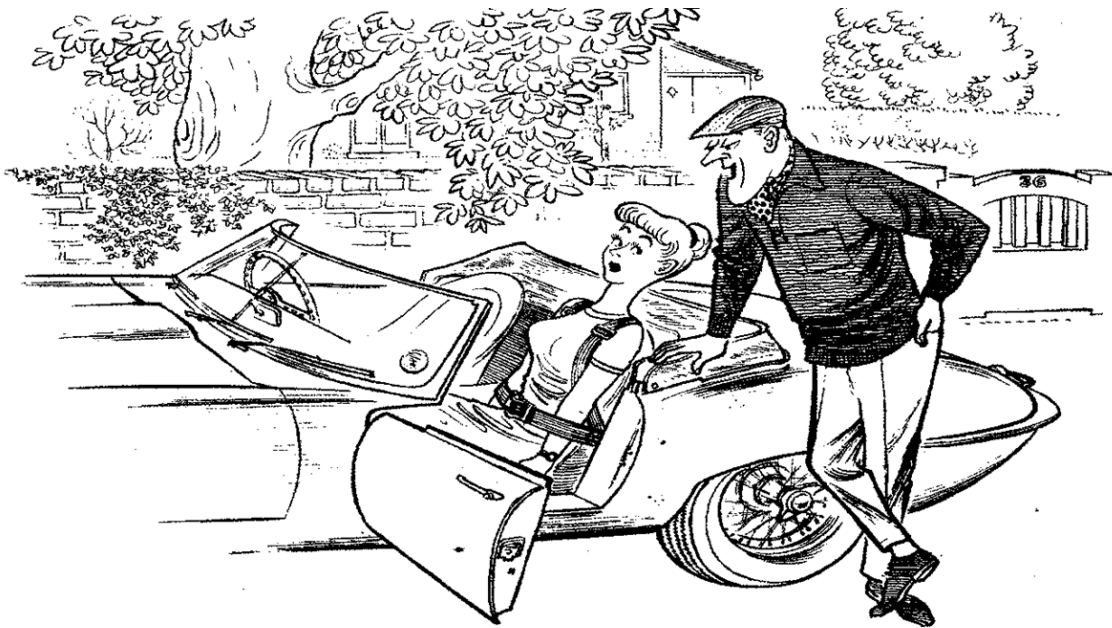

The vehicles inspected included standard light vehicles, four-wheel drive vehicles and two vehicles that were on standard registration built in 1987 and 1991 (neither of these vehicles were part of CVS or HVS).

The routine inspection was part of the standard checking process done throughout NSW to ensure that all vehicles on the road are safe and in good working order.

There were a range of issues identified from uncertified, modified vehicles to unsafe defective vehicles. In total 37 vehicles were inspected with 33 defect notices issued. The vehicles eligible for CVS/HVS were both found to have major grounded defects (red labelled) for issues ranging from uncertified engine upgrades (turbo, air filters), exhaust systems non-compliant, window tint and suspension.

We'd love to hear about what's working well and where we can improve. Your feedback will help us shape future editions of DRIVE Lite and bring you topics and information that's important to you.
