PRESIDENTS REPORT - SEPTEMBER 2019

Well, as many of you already know, I am delighted to report that the Club now has 10 Life Members. At our very well attended meeting on August 7th, the following were the very first to be elected to Life Membership of our Club and on behalf of the whole membership I extend congratulations to:

Jim and Barbara Hodgson

George and Marjorie Jensen

Robert and Meryl Lovell

Brian and Heather Sidney

Bryan and Helen White

This has been a lengthy and detailed process and I wish to place on record my (and by definition, the Club's) appreciation for the work done by Robert Lovell and Barry Granatelli in bringing this overdue process to completion. Many, many thanks Robert and Barry.

Regarding Club outings, Christmas in July was a wonderful day out in Ballina with entertainment at the Cherry street Bowlo followed by an excellent lunch at the RSL. Lots of good stories and jokes topped off with some of Heather Sidney's fantastic Xmas cake.

The tour of the Ballina Fire Station with a talk by the Station Chief was most interesting and once enlightened, the group set off for coffee at the Gallery cafe in Ballina. The coffee and treats were enjoyed by another excellent turnout of members and their cars.

The Observation Run on August 18th took place on a superb winter's day and while the numbers were slightly disappointing those who did participate "enjoyed" a challenging drive, initially south of Lismore before stopping for morning coffee at the Eltham pub. After refreshments we headed north through Federal and Dunoon before finishing at our lunch destination at The Channon Tavern. I mentioned challenging because the organisers chose an encyclopaedic list of questions of which nobody answered all correctly. Winners with an excellent score were Steve Craven and Chris McNall, however most participants scored admirably albeit a few having to retrace their steps in order to find the clues. They tried to assure those of us having lunch about 45 minutes before they arrived that they had not got lost!!! All in all a great day and thanks to Jeff, Winton and Lex for organising it.

My XK 120, that is the green car that had the water pump problem, ran well on the observation run although an adjustment to the fan belt tension is necessary as is attention to the speedometer cable/gauge as the odometer gave up the ghost!

When, or soon after you read this, Robyn and I will be winging our way to the UK for a 5 week sojourn which will take in a driving trip starting in Edinburgh, Scotland then up to John o Groats, down the west coast and on to the Lake District, further south to Goodwood for the famous "Revival" (3rd time, sorry!) then to Devon and Cornwall (ancestors) and finally a few days in the Cotswolds. Further report for those interested on our return. In the meantime please don't forget our weekend away to South West Rocks (October 18/19/20th). It promises to be a terrific weekend with interesting visits to the Slim Dusty Museum in Kempsey, the Trial Bay Gaol in South West Rocks, great food, good company and a chance to give your cars a real taste of touring. Don't forget to call the Rockpool Motel 02 6566 7755 and book a room.

Enjoy the great events in September, particularly the French run which we are bitterly disappointed to be missing as Gayl (and David!) do a fabulous job.

See you in October. David H

RECENT OUTING

COFFEE RUN TO BALLINA—WEDNESDAY 14th AUGUST 2019

Car Club members travelled to Ballina Fire Station on our recent outing. We meet with Dennis Henry Fire Captain who gave a very informative talk to the group on the Fire Station and history of the Fire Service and current matters of interest. Members very much appreciated his presentation and the opportunity to view the new Fire Station.

We then adjourned to The Gallery Café for coffee and treats. It was a great day for members and was enjoyed by all.

RECENT OUTING

OBSERVATION RUN—SUNDAY 18th AUGUST 2019

Another beautiful day for a meander through the countryside. The organisers—Jeff Pettitt, Lex Cole and Winton Brocklebank—provided a challenging drive, initially south of Lismore before stopping for morning coffee at the Eltham pub. After refreshments we headed north through Federal and Dunoon before finishing at our lunch destination at The Channon Tavern. A good day—thank you.

MY CLASSIC JOURNEY

Toad of Toad Hall must take some responsibility for this sometimes frustrating, painful, contented and enlightened journey, that started about 1963 and continues to this day, with the satisfaction in between of two FJ Holdens, EH Holden Premier, MG TF 1500, MGBGT, (I did try for a v8 out of uk but was beaten by rust) Triumph TR4A, Peugeot GTI 206, thence to the Mercedes phase of a 985 BS 280sl, 1997 SL280, and now to the 1971 all of which this article is about

Purchased in July 2008 after a 2 year search a one owner car was found in very good condition having been in storage for 12 years. \$15,000 was spent getting the vehicle ready for rego, and that was when I, upon seeing vehicle drive into car yard purchased it on the spot, we all know that luck has to be around when we look for parts and vehicles of this ilk and it was sitting on my shoulder on this occasion. The car had some rust spots ie bottom of windscreen pillars, bottom of hard top at rear, LHR mudguard, rear dove tail, and the aluminium bonnet had paint lifting.

Whilst doing these repairs I found that the water leaks in the front and rear of the hard top was the result of the rubber seals being put on back to front and upside down, this all happened even when grooves were there for all too see, some mothers do have them!

Front oil seal leak turned out to be a cracked sump, and not an easy job, remove complete front suspension etc. tachometer drive gear was missing and you have to buy a set which cost \$2,000, not likely. Upon checking spare parts book found that the drive was a screw on extension of fuel pump drive gear. I removed fuel pump drive and had extension machined as per picture in parts book, with correct clearances, wrong, first attempt was just a bit tight and lasted. [not long] before breaking, second attempt was and is a complete success, still going strong.

Gearbox was removed to find rubbing noise, circlip at front of box had come off allowing drum to move forward and rub oil pump retaining bolts. circlip replaced, gearbox replaced, all good,

I think not, as somewhere along the way we lost 3rd and 4th gears. car trucked to Sydney for another gearbox-upon picking up car and all's well till Penrith, vehicle ceased to proceed, 1 ½ hour trip took 6 hours, vehicle lasted 10 to 15 minutes, before stopping! I did arrive home sooo happy.

Upon continuous inspection of a fuel pump that looked soooo new, fault was found with the help of a pressure gauge, and a newer fuel pump was fitted. I continue to enjoy my vehicle the money that it so enjoys taking, latest a soft top from USA, cost - please don't ask. I do so enjoy my journey with classic cars and the restoration of same; I find that the real reason for this madness is the gleeful expectation of the next breakdown, followed by the stress of trying to source the parts to make my baby go again.

The madness of this I find, as I sit at classic car club meetings all warm and fuzzy, and look around has indeed spread, and for this I thank toad of toad hall, that the many friends and friendships that have been made upon the journey, that started way back where I care not to seek, continues to this day and, I hope for many more days to come.

Yours, Micheal McIntosh, enjoy

Mike McIntosh (left) with his Mercedes and Jeff Pettitt
