## Col's Column

Another rego. day passed without many problems. Good to see that the vehicles are being checked before they are brought in for inspection. A big thank you to all the hard-working volunteers who made the day run so smoothly. That means the orange vest personnel and the paper pushers, Mike and Mick who kept the cars moving all day and the people checking lights, batteries, exhaust, tyres, bodywork and oil leaks. The inspectors who checked suspension and steering etc. and signed off ready for the cars to hit the road for another twelve months. The members who organized and cooked the BBQ lunch and kept us hydrated with water and coffee, it was most appreciated.

Again, a big thank you to Hardman Nissan for the use of their facilities, without which the rego. day would not happen. I would also like to mention the Armidale Bowling Club for the use of parts of their driveway, even though they had a huge event on at the same time. The car park was full!

I tried my best to bring on the rain by bringing the Midget down with the roof off. I did chicken out by the time I brought the Merc. down with the roof up. But we did get some rain and I found the roads pretty slippery, especially with the V8. Amazing how just a couple of days of storms has freshened up the grass.

We still require someone to put up their hand to take on the events convener's job. Please have a think about it. Bob Willis will be holding a meeting of the events soon, so please get involved.

I will be missing in action for the next meeting, so I will see you at the Christmas Party. If not, have a happy and safe Christmas and a safe New Year.

Col

**PRESIDENT'S REPORT**

Well my year as President is done and I would like to thank all Members for their support during this time. The Club has grown throughout the year and continues to do so, including at tonight's meeting. I would like to welcome all our new members and encourage them to become active in the events that the Committee organises. We understand that it is not possible for all members to attend weekday events or every event on weekends but please do try to get along as often as you can and reap the benefits of being part of our very successful, active and social Club ... the company of new members and their machines is always most welcome. I encourage members to make use of their Log Books, being sure of course, to adhere to the RMS rules at all times. Thank you to all those members who completed the recent Club survey; there were some very constructive comments and some food for thought and from what I read it appears that most are quite happy with the way the Club is running.

It seems that some of us are a little shy about putting ourselves forward for executive or committee positions. Please do consider getting involved in running the Club, even if an elected position is not your thing there are a number of ways that you can contribute; maybe by helping out on the BBQ, cooking to share, suggesting an event or organising a run. It is not all that hard, help is always available and Club members will really appreciate your efforts - pleased don't hesitate to come forward.

I would like to thank current office bearers for the job they have done this year and have every expectation that new and returning officer bearers will continue to have the Club running smoothly through 2020. *Col Pearce*

# The 2019 slightly longer MYSTERY LONG RUN *Don Hewitt*

I have heard comment that the LONG RUN, organised annually by Mick and Lyn Poulter, should not be a “mystery”. We have just completed our first six day run and there are distinct advantages in the run (and the daily runs) being a “mystery”. Simply it is the best way to keep the entrants from heading off to find their own way to the destinations. Following the leader and listening on Channel 13 worked very well with the whole group arriving every time. Twelve cars carrying twenty-two enthusiasts lined up at 7:00 am on Sunday November 3<sup>rd</sup> to begin the “Mystery”.

**DAY 1:** Destination - Esk in Q’land-distance 530 Kms. First comfort stop: Glen Innes then on to Yarrowford Picnic Area for morning tea-on through Warwick-back road to Allora for lunch. North toward Toowoomba before turning right on the Gatton/Esk scenic road to our destination. Motel for the next three nights is Brisbane Valley Rail Trail Motel. Happy hour and car talk before Lyn prepared a home-made Pizza dinner for us all. I’m not a Pizza lover, but these were good.

**DAY 2:** 9:30am Muster- off to the village of Somerset Dam for a stroll before seeing lots of water and enjoying a picnic lunch while watching thousands of cormorants fishing from the Dam. After our second happy hour we adjourned to The Grand Hotel for dinner.

**DAY 3:** Muster tells us we are on a 100km run to Toogoolawah for morning tea before we travel west to Blackbutt, home to the highly awarded Blackbutt Pie. After sampling the renowned product, we headed back to Esk for the traditional Happy Hour. Dinner was at The Grand Hotel.

**DAY 4:** Muster at 8:30 where Mick tells us that we will be shifting motels today while visiting Fernvale, Marburg, Rosewood, Tallegalla, Minden, Plainland and Gatton. Our first stop was to visit the magnificent Homestead of Woodlands where we were given a tour of the historic building and grounds. Although built as a private residence (with no expense spared) the building has had several owners, including some monks who hand dug a magnificent Olympic swimming pool. We were provided with a beautiful morning tea of scones, jam and cream by the staff. Our accomodation for the next three nights was The Gatton Motel. After happy hour we had dinner at the Royal Hotel.

**DAY 5:** Muster at 8:30. 70 km run today. First stop was at the Gatton Campus of the University of Q’land which has undergone massive changes since it was a country Agricultural College. Our morning tea stop was at Lake Dyer which was showing the extremes of drought. Through Laidley we adjourned to the country Pub at Mulgowie. Here we experienced the smokey threat of bushfire. On our return to Gatton we visited the Q’land Transport Museum.

**DAY 6:** After a 9:00 am Mick led us to Pohlman’s Nursery to enjoy a train tour of maybe the biggest plant nursery in the Southern Hemisphere. The 150 employee nursery raises garden plants for 1000 customers who retail the plants to gardeners who have the luxury of water. After a delightful morning tea in the shade of hanging plants we returned to Gatton for an easy afternoon. Some visited the Truck Drivers Memorial and were staggered by the number of plaques in memory of the truckies who have lost their lives on the job.

Some adventurous folk could not resist the opportunity to travel the Toowoomba Bypass which is a magnificent piece of road construction.

**DAY 7:** Home day (or so we thought). We moved off on our way to Warwick for morning tea aware that we were to meet the Armidale contingent who were travelling north to join us for lunch and a visit to Hillier’s Motor Works. We were pleased to meet with six cars from home before Gavin Hillier generously gave of his time to explain their part in the distribution of hearses to undertakers. This was a most enjoyable visit by those with engineering appreciation, especially Ross Campbell who had travelled with Peter Ducat to view the specialised workshop.

## **THEN THE WHEELS FELL OFF: THE HIGHWAY WAS CLOSED AT BOLIVIA HILL.**

Some travelled home via Bonshaw and Inverell while others decided to extend the LONG RUN by another day.

While the 2019 run was our first, the air-conditioned Cressida was pure fun. The fellow club folk were a pleasure to be with and words cannot express our gratitude to Mick and Lyn for the pre-preparation and the polished organisation that made the trip a pleasure.

## Taree Excursion

We were disappointed with the cancellation of the Taree Hub Rally. However, having found a good accommodation deal for the five days of the rally; Lusy and I, Col and Judi Pearce and Graham Earl decided to go to Taree anyway. We left on Friday the 18<sup>th</sup> October, travelling down the range to Gloucester and then onto Taree. Prior to leaving I notified the Taree Club Secretary that we were coming down and I had received a call from Taree Club member Allan Bryson advising he would meet up with us when we arrived. Allan and his wife Di met us at the motel and advised us they had arranged for us to visit a car collection on the Saturday in Taree and would call for us and take us there. They took us to meet Wally Spychala a retired motor dealer who had the following cars in his collection: XK 140 Jaguar, MGB GT, 1954 Buchanan, 1972 MGB Tourer, 1960 Mark 2 Jaguar [the ex TAS School car], 1962 Mark 2 Jaguar [previous rally car], 1954 MG TF, 2 MGA Roadsters, 1966 Mustang, 458 Ferrari Italia and a X300 Daimler. All these cars were restored to perfection and the morning tea spread Wally put on was delicious. Wally was a most amenable host and was enjoying his retirement with his cars.

Allan advised us that we were invited to the Taree Club's Sunday run which was to leave Taree at 8:30 and drive to Kendal for morning tea and then on to Laurieton for lunch. Not surprisingly, when the Taree Club cars turned up, most were convertibles [a climate change]. A quick trip down the highway and we arrived at Kendal for morning tea at Miss Nellie's Café. I was pleased to meet up with Bernadett and Gary Henderson, a couple we were close to back in the 70's in the Dubbo car club who now live in Kendall. Col, Judi and Graham joined us and after a very long but enjoyable morning tea we drove onto North Haven for lunch. After lunch and a walk and talk with club members we took a leisurely drive back to Taree. Back at our motel we discussed the day out. We all agreed that the day was a great example of what heritage motoring was all about, people sharing a common interest [passion] having an enjoyable time together with a few cars thrown in.

Monday arrived and Graham had arranged for us to visit Barrier Signs, a company which supplies a great variety of aluminium signs for local government and many other customers. You want a sign, you specify it and they will make it. We all came away with a new respect and understanding of roadside signs. We then drove to Tuncurry and arranged with an operator to go whale watching on the next day. We set off Tuesday on the boat, a twin hulled vessel, and after a tour of the river crossed the bar, then out to sea to catch up with the whales. We saw many whales, mothers with calves, most seemed intent on continuing their long journey south. Wednesday was time to head home, however Allan and Phil had arranged a farewell breakfast at Phi and Anthea's home at Croki. A great breakfast, a look at some more heritage vehicles and we then headed off for the drive back to Armidale.

The Hub didn't happen but thanks to Taree members we had the best time at the rally that never happened. If you have never attended a rally, have a break out and attend one - you will not be disappointed. There is so much more to heritage motoring than just driving your car.

The next Hub Rally is at Tamworth so mark your calendar for next October and an expansion of your horizon.

Bob Willis.

Scotland no longer produces its own breed of car, but in the past there have been more than fifty, and of these at least three were well known Arrol-Johnston, Albion and Argyll. Argyll was the most famous. The name was devised by Alexander Govan, the company's founder. In the days before the First World War, it was at one time the fifth biggest car manufacturer in Britain. For a spell, around 1907, Argyll were making cars faster than any other manufacturer in Britain. The badge illustrated contains a red lion and a thistle, both features of the Royal Arms of Scotland, and for some reason a rose. Alexandria was the location of the factory opened in 1906. This badge was used on certain models between 1912 and 1922. Argyll manufactured cars from 1899 to 1932.

## **Membership Application Process**

People intending to become members of the CSCCNNSW are required to attend a General Meeting of the Club and introduce themselves to the Membership Officer and collect an Application Form and a copy of the Constitution. They are also required to introduce themselves to the Club. The Application Form will not be accepted at this meeting.

Applicants are to submit their completed Application Form at the next meeting. It **MUST** be signed by the applicant, or the Application will be rejected. The Application will be approved/not approved by the Committee, may take a couple of months. The Membership Officer will then notify the applicant.

Once the applicant has been accepted they are to pay the equivalent of 3 years subscription within 28 days of being notified of their acceptance. Failure to pay within the stated period will result in forfeiture of the application. An additional \$20 per year is payable for a printed magazine.

Historic Vehicle Registration will only be available three (3) months after payment of their fees.

## **HVS Registration Procedure**

You **MUST** be a financial member of the CSCCNNSW.

Only unmodified vehicles eligible for the existing scheme can be registered in this scheme.

For **ALL** new registrations, irrespective of whether a vehicle has a current Pink Slip roadworthy certificate, all vehicles are required to be inspected by the CSCC Registration Officer, or Assistant Registration Officer, before the RMS Historic Vehicle Declaration (Form 1259) will be stamped and signed. You cannot renew registration at a RMS office unless the form bears the Club Seal and Registrar's signature.

All historic vehicles registered by members of the CSCC are required to have a current comprehensive insurance policy which must be shown to the Registrar. You must also show your current Club Membership card.

Once all the above have been completed, submit the registration certificate, RMS Historic Vehicle Declaration form and payment to a Roads and Maritime Services or Service NSW office. When doing so you have the option to have a log book (at no extra cost) for usage outside Club events

When your Vehicle has been passed for registration by RMS you **MUST** inform the CSCC Registrar, or Assistant Registrar, of the Plate Number, if you are on the logbook and any other changes to your Registration.

## **HVS Usage Rules**

### **For owners of vehicles with Conditional Registration:**

A Movement Permit must be obtained from the Club Movement Officer and carried for any non-club approved movement, where the member is **NOT** a participant in the Logbook Scheme;

Movement Officer will document and give verbal approval for maintenance runs in excess of 30 km radius from their place of residence, where the member is **NOT** a participant in the Logbook Scheme;

Must observe all RMS and national road rules and regulations;

Members are not liable for any infringement notices or fines incurred by another person in control of their conditionally registered vehicle provided such use is in accordance with this clause and the member indemnifies the Club from any and all liability which may arise as a result of such usage;

Members on the Logbook Scheme are required to complete the logbook for each usage that is not a Club Run. This includes ALL Maintenance Runs regardless of distance;

It is a requirement by Law that you Carry the Purple Card Issued by RMS, Your Log Book and /or Proof of a Club Event in the Vehicle at all times;

Caution needs to be exercised when leaving a vehicle with an outside workshop for work. If the mechanic is to test drive the vehicle he must make a log book entry. Only one log book entry needs to be made for each day, but a separate signature is required by every person who drives the vehicle on that day.

Any member may bring to the attention of the Executive an alleged misuse of Conditionally Registered Vehicle by a member of the Club, but such notification must be in writing and signed by the member making the allegation.

In the case of apparent misuse of a Conditionally Registered vehicle

the owner will first be asked by the Executive to explain the misuse;

after consultation the Executive will formally remind the owner of the RMS rules and regulations for Conditional Registration; and

the Executive will report back to the next General Meeting and either recommend no further action or some form of disciplinary action to be taken;
